MY SKILL

Front-End Developer building responsive and user-friendly web applications using HTML, CSS, Bootstrap, JavaScript with strong teamwork, communication, and collaboration skills.

Experienced in client communication and digital solution delivery through hands-on work at Merkeb Tech and local sales experience in Bahir Dar, bringing strong problem-solving ability and real-world customer interaction expertise.

ABOUT ME

I am a third-year Software Engineering student at Bahir Dar University with a strong focus on front-end web development. I build modern, responsive, and user-friendly websites using HTML, CSS, Bootstrap, JavaScript, and React, supported by a solid foundation in Java programming. Alongside my technical skills, I bring strong communication, teamwork, and client-handling abilities developed through my experience as a Sales Executive and Social Media Manager. I have worked with local clients to deliver practical digital solutions, combining technical knowledge with real-world business understanding. I am a motivated and detail-oriented developer who continuously strives to improve and create clean, efficient, and user-centered applications.

EXPERIANCE

Work

I am sales executive and social media manger at merkeb tech the student team that design software solution for local area
